

RECOMMENDATION

ORTAGOLI HAKIMOV

Date of a birth: on April, 30th, 1944

He works in system of the Uzbek agency on standardization, metrology and certifications ("Uzstandard" agency) from 1994 in a post of the assistant to the main metrologist, the chief of a department of the main metrologist, director of the Center of national standards of Republic Uzbekistan (CNS Uz), and now - the head of department of metrology of the Scientific research institute of standardization, metrology and certification of "Uzstandard" agency.

The candidate of physical and mathematical (from 1974) and the doctor of technical (from 1994) sciences on specialties 05.11.13- Devices and a quality monitoring of an environment, substances and products and 01.04.14 - Thermophysics and the molecular physics.

The deserved inventor and the rationalizer of Republic Uzbekistan (from 2004), the Full member of the Ukrainian Technological Academy (from 1997) and the Foreign Member of Metrological Academy of Russia (from 1999), the professor (from 2003).

Under the initiative and long-term laborious work and O. Hakimov's diligence "Uzstandard" Agency became member of COOMET. He carries out direct coordination by all works spent within the limits of COOMET. He is a member of Committee COOMET from Uzbekistan. Under his management and participations for the first time in histories of Uzbekistan are organized and lead checkings standards. Checkings national standards of unit of the charge of a liquid (theme COOMET.M.FF-S2), inductance and weight are lead.

O. Hakimov is the supervisor of studies to fundamental and applied themes (grants) of the state scientific and technical programs (SSTP) of the Center on a science and technologies of the Cabinet of Republic Uzbekistan - «Research, perfection and checking of national initial standards of Republic Uzbekistan with standards of the countries-members of regional metrological organization COOMET for preparation for Agreement CIPM MRA» and «Development of a scientific basis of an estimation of uncertainty of measurements of the physical sizes, harmonized with the international requirements in Uzbekistan». Actively participates in preparation of experts-metrologists. He is a member of advisory council of the HCC of Republic Uzbekistan and an editorial board of magazine "STANDART".

Participates the scientific works in regular organized under aegis COOMET the international conferences and scientific seminars. Under his initiative and active participation in 2006 and 2008 in "Uzstandard" agency (Tashkent) are lead Republican seminars with attraction of foreign experts on a theme «Actual problems of uncertainty of measurements». Are developed and published the monography, scientifically-methodical and manuals: «The estimation of uncertainty of measurements» (2008), «The estimation of uncertainty of measurements of the thermophysics properties of fibrous materials» (2010), in 2009 in the co-authorship with Deserved metrologist COOMET O.N.Velichko - «Traceability of measurements: normative maintenance and the basic components». On a regular basis he shines in magazine "STANDART" about sessions of Committee COOMET and its structural divisions.

O.Hakimov's activity now is directed on signing of Agreement CIPM MRA by Uzbekistan. He has brought and continues to bring the powerful personal contribution to strengthening a role and authority COOMET on Uzbekistan.

He is recommended to assignment of a rank «Deserved metrologist of COOMET».

The general director
of "Uzstandard" agency

Abdukahhor Abduvaliev
